Summary

Frontend Developer with 3 years of experience specializing in JavaScript, TypeScript, and React. Passionate about building user-centric web applications with clean, efficient code. Proficient in state management (Redux, MobX), performance optimization, and integrating complex APIs. Strong team player, experienced in cross-functional collaboration to deliver scalable, high-quality products.

Technical Skills

Frontend: React, Next.js, Redux, MobX, HTML, CSS, Sass, Webpack
Backend: NestJS, Node.js, Express.js, REST API, WebSocket, PostgreSQL
DevOps & Cloud: Git, GitHub Actions, CI/CD, Docker, AWS, npm/yarn
Testing: React Testing Library, Jest, Cypress
Programming Languages: JavaScript, TypeScript, C/C++, Python

Work Experience

Frontend Developer | Myack | 03/2023 - Present

- Developed a multi-step online form with real-time data validation, pagination, and PDF generation, streamlining user interactions.
- Implemented a multi-stage patient booking system, allowing users to seamlessly switch stages and save data, improving efficiency by 40%.
- Integrated Google Maps to dynamically display the nearest hospitals, enhancing accessibility for users.
- Designed interactive charts to visualize patient medical data, enhancing clarity and decision-making for doctors.
- Built an interactive body map to visualize medical conditions and health indicators with greater clarity.

Frontend Developer | Welbex | 10/2022 - 03/2023

- Developed and integrated 10+ custom features into AmoCRM, including Google Drive, Yandex Disk, and third-party services, streamlining workflows and boosting business efficiency.
- Migrated legacy JavaScript components to React, improving maintainability and reducing future development time by 30%.
- Collaborated with backend engineers, testers, designers, and product managers to align technical solutions with business goals.

Frontend Developer | Proxyone | 02/2022 - 04/2022

- Developed responsive, SEO-optimized websites and admin dashboards, improving site accessibility and UX.
- Enhanced website performance, increasing PageSpeed score from 69% to 100%.
- Managed project deadlines, improving task planning and execution.

Education

Bachelor's in Information Systems & Technologies
Kazan National Research Technical University - KAI | 2020 – 2024
